The Needs of the Communities	06

## ACKNOWLEDGMENT

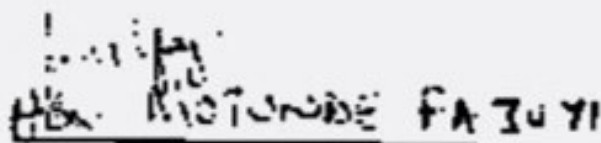

On behalf of Ado Local, I wish to acknowledge all the different stakeholders that actively participated in producing this Community Development Plan. In producing this Plan, no stakeholder group was left out of the process. It was highly participatory and inclusive. The following major stakeholders actively participated in the process of identifying the needs, resources and assets of the communities: Chiefs, Iyalojas, Leaders of Community Development Associations, Youths, Women, Artisans, Farmers, Workers, the Elderly and Retirees as well as LGA Officials.

We also express our appreciation to the team of community volunteers and Local Government Officials who worked tirelessly over a period of 3 weeks, moving from community to community, organising Focus Group Discussions and In-depth Interviews with different community members to collate their needs, and also visited schools, health facilities and the sites of social amenities to ascertain their conditions.

Lastly, our profound gratitude goes to our technical partner, Community Life Project (CLP) supported by the MacArthur Foundation.

Through this Community Development Plan, our communities have expressed their needs and aspirations for promoting their progress and welfare. We have no doubt that this Plan will go a long way in helping us to achieve cost-effective development at the local level.

The LGA will work closely with the different stakeholders to ensure effective implementation of this Community Development Plan.

Name

Chairman, Ado LGA

Name

Chairman, Traditional Council of Oba

## INTRODUCTION

This Community Development Plan (2021 – 2023) of Ado Local Government Area (LGA) outlines the vision and development needs of the communities in the LGA. The Plan is the outcome of a collaborative effort of the Local Government and community leaders. It was developed through a highly inclusive and participatory process, which allowed all major community stakeholders to express their voice on their needs. It captures the needs of communities as identified by the Chiefs, Youths, Women, Artisans, Farmers, Workers, the Elderly and Retirees.

The Plan outlines community needs in the following areas: Water and Sanitation, Education, Health, Local Economy, Basic Infrastructure (Roads), and Security.

### Benefits of the Community Development Plan

This Community Development Plan is beneficial to the government and communities in many ways. It will:

- help the government to:
  - know the real needs of the people;
  - prioritise the needs of the different communities;
  - wisely allocate government funds;
- make it easier for both the LGA and the state government to harmonise their development efforts in the communities to avoid duplication of projects;
- reduce the siting of unsustainable projects in communities;
- make the budget preparation process easier for both the LGA and the state government.

In addition,

- Communities and the LGA can use the plan to solicit for support for projects from prominent sons and daughters of the communities, corporate bodies, foundations and philanthropists.
- Communities can also use the plan to engage their elected representatives to choose their constituency projects from the real needs captured in the Plan;
- The Plan will help the LGA create a sense of belonging for members of the community, as they work together with government to solve their problems.

### Background Information

Ado Ekiti Local Government is in Ekiti Central Senatorial district of Ekiti State. It has a land mass of about 297 square kilometres and a population of 313,690 according to the 2006 Census. It is the most populous local government in Ekiti and serves as the capital of the State. Its paramount ruler is the Ewi of Ado-Ekiti, who holds council with his Ewi-in-council.

Majority of its inhabitants engage in farming. It has a fertile land and grows yams, cocoyams, cassava, rice, maize, plantain, banana, tomatoes, pepper, okro, vegetables, palm and kolanut.

## Vision of the Communities in Ayedire Local Government

We want a viable and thriving community with a serene environment that has all the needed basic and human infrastructure for growth and development.

## How the Plan was developed

A team of volunteers made up of Community Leaders and Community Development Officers in the LGA were trained by our technical partner, Community Life Project (CLP), on how to carry out participatory needs assessment; the team then visited communities to collate their needs.

The needs assessment was carried out over a period of 3 weeks in 20 communities in the LGA.

The team went round the communities, visited the Oba, and carried out Focus Group Discussions and In-Depth Interviews with different stakeholders to collate the pressing needs of the communities. The stakeholders interviewed include: Council Chiefs, Iyalojas, youths, women, Artisans, workers, health workers and teachers.

The Team also visited health facilities and schools to ascertain the conditions of the facilities.

A Town Hall Meeting was organised to review the Needs collected by the Needs Assessment Team. At the Town Hall Meeting, stakeholders reviewed the Community Needs that the Team had collated to make sure that they were accurate. The stakeholders were able to make further input, which helped to ensure that the collated Needs actually reflect the real Needs of the communities.

The communities where the needs assessment was carried out are:

<i>Ago Aduloju</i>	<i>Emirin</i>	<i>Ika</i>	<i>Odo Ado</i>
<i>Ajebamidele</i>	<i>Idofin</i>	<i>Ikingbinsin</i>	<i>Oke-Aso</i>
<i>Aso Ayegunle</i>	<i>Igbogun</i>	<i>Ilokun</i>	<i>Oke Ila</i>
<i>Aaye</i>	<i>Igirigi</i>	<i>Irasa</i>	<i>Oke-Ewi</i>
<i>Embassy Island</i>	<i>Ijadu</i>	<i>Kajola</i>	<i>Uso</i>

**Needs Assessment Team Members and Chiefs at Akodi Idofin, Ojido Area, Odo-Ado**

## THE NEEDS OF THE COMMUNITIES

### 1. Water and Waste Disposal

#### 1.1 *The Water Situation*

The major sources of water in the communities are boreholes, wells and streams / rivers. There are 25 public boreholes in 10 communities in the LGA.

The remaining 10 communities rely on wells, rivers or streams as their source of water. These are *Ajebamidele, Aaye, Embassy Island, Emirin, Ijadu, Ikingbinsin, Ilokun, Oke-Aso, Oke Ila and Uso*.

There are also individually dug wells in most of the communities.

#### ***Faulty Boreholes:***

11 boreholes are not functioning. 5 of them are located at Ago Aduloju community; 1 in Aso Ayegunle community; 2 in Igbogun community; 1 in Igirigi community; and 2 in Kajola community.

#### 1.2 *The Waste Disposal Need*

There is need for a proper waste disposal system in the communities. At the moment, it is only Idojin community that make use of the Waste Management Board to dispose of their household waste. In the remaining 19 communities, different households adopt various means of disposing their waste - some creates a dumpsite behind the house and set the waste on fire when it is filled up; some collect the waste and drop in the bush or place on the road for government to pick them while others dump the waste in gutters during rainfall.

With respect to human waste, there is need to ensure that all households have proper toilets. Some households in 7 communities still do not have toilets and practice open defecation.

### 2. Education Sector

#### 2.1 *The Situation of schools in the Council*

Ado Ekiti has 16 public primary schools and 5 public secondary schools.

#### 2.2 *Communities without Schools*

5 communities, namely, *Embassy Island, Emirim, Idojin, Ijadu and Oke-ewi*, do not have any public schools. The children from these communities attend schools in neighbouring communities.

### 2.3 The Needs of the 16 Primary Schools

<b>Communities</b>	<b>Schools</b>	<b>Needs of the Schools</b>
<b>Ago Aduloju</b>	<b>St. Peters Nursery / Primary School, Ago-Aduloju</b> <ul style="list-style-type: none"> <li>• <b>Location:</b> Back of the Market Ago, Ijan Ekiti Road</li> <li>• <b>Founded: 1948</b></li> <li>• Number of Pupils: 236</li> <li>• Number of teachers: 10</li> <li>• Number of classrooms: 8</li> <li>• Number of classrooms that needs repairs: None</li> <li>• Toilets: 1</li> <li>• Water: Available</li> <li>• Teaching Aids: Writing materials</li> </ul>	The school does not need anything for now.

#### **4. Local Economy**

##### **4.1 Economic Activities**

The economic activities of communities in Ado LGA are farming (including poultry and fishing), petty trading, and artisan works such as tailoring and carpentry.

The Farm produce include yam, maize, rice, coco-yam, beans, tomatoes, pepper, okro, vegetables, oranges, banana, plantain, pineapple, cassava, cocoa, palm oil, cashew, kolanuts.

##### **4.2 Available Resources**

The communities boast of viable lands for farming. In Igbogun community, there is sand and gravel; Ogburugbere waterfall in Ika community; limestone and timber in Irasa community; and Osun, Olori, and Olotoro Rivers as well as different types of stone and valleys found in Oke Ila.

##### **4.3 Major Economic challenges experienced by communities in the LGA**

- Lack of credit facilities (loan from government)
- Lack of market
- Poor access roads
- Insecurity
- Lack of electricity

*The transformer at Igrigiri has not been working for the past 30 years.*

## 5. Basic Infrastructure: Roads

<b>Communities</b>	<b>Roads that need rehabilitation</b>
Ago Aduloju	<ul style="list-style-type: none"> <li>Ado – Ekiti Federal Road leading to Ijan to Ondo state</li> </ul>
Ajebamidele	<ul style="list-style-type: none"> <li>The road from Ajebamidele to Powerline has been abandoned for years</li> <li>The road from Shasha to Ajebamidele</li> </ul>
Aaye	<ul style="list-style-type: none"> <li>Only access road to the community</li> </ul>
Embassy Island	<ul style="list-style-type: none"> <li>The road from Embassy Island to Moferere</li> <li>The Itamo-Olujoda-Igirigiri-Agric - Road</li> </ul>
Idofin	<ul style="list-style-type: none"> <li>The Maddew-Poly Road</li> </ul>
Igbogun	<ul style="list-style-type: none"> <li>The road from Ago-Aduloju to Igbogun</li> </ul>
Igirigi	<ul style="list-style-type: none"> <li>The road from Main Ado town to Igirigi community</li> </ul>
Ijadu	<ul style="list-style-type: none"> <li>No good road in the community</li> </ul>
Ika	<ul style="list-style-type: none"> <li>The Iworoko – Ika – Igede Road</li> <li>The Ika – Esure Road</li> <li>The Irasa – Ika Road</li> </ul>
Ikingbinsin	<ul style="list-style-type: none"> <li>No good road in the community</li> </ul>
Ilokun	<ul style="list-style-type: none"> <li>The road from Ilokun to Afao</li> </ul>
Irasa	<ul style="list-style-type: none"> <li>The road from Irasa town to Ika town</li> <li>The road from Igede – Irasa</li> </ul>
Uso	<ul style="list-style-type: none"> <li>The road from Oke-Ila to Uso</li> </ul>
Kajola	<ul style="list-style-type: none"> <li>The Kajola Ago Road</li> <li>The Kajola Ijan Road</li> </ul>
Odo Ado	<ul style="list-style-type: none"> <li>The Okegbala-Odoko-Oke Utere Road</li> </ul>
Oke-Aso	<ul style="list-style-type: none"> <li>The Omisajana – Ado – Oke Aso Road</li> <li>The Adugbeku – Odoko – Eepa – Ilawe Road</li> </ul>
Oke Ila	<ul style="list-style-type: none"> <li>The Afao Road</li> <li>The Okeila-Ilado-Iloro-Rosebud Road</li> </ul>

## 6. Security

### 6.1 The Security Situation in the LGA

4 communities - Ado, Ajebamidele, Iso and Oke Ila - have police stations. The other communities rely on self-help initiatives - local hunters, personal security and mobilising youths to respond to security challenges.

### 6.2 The Security Needs

- Operational vehicles for police
- Siting of police posts in some of the communities without security agencies.
