ACKNOWLEDGMENT

The Oye Local Government Area (LGA) wishes to acknowledge all the stakeholders that participated in producing this very useful Community Development Plan. This Plan was produced through a highly inclusive and participatory process. No stakeholder group was left out of the process. The stakeholders actively participated in the process of identifying the needs, resources and assets of the communities. They include Traditional institution, Persons with Disabilities, Youths, Women, Artisans, Farmers, Workers, the Elderly and Retirees as well as LGA Officials.

We also express our appreciation to the team of community volunteers and Local Government Officials who worked tirelessly over a period of 3 weeks, moving from community to community, organising Focus Group Discussions and In-depth Interviews with different community members to collate their needs, and also visited schools, health facilities and the sites of social amenities to ascertain their conditions.

Lastly, our profound gratitude goes to our technical partner, Community Life Project (CLP) supported by the MacArthur Foundation.

Through this Community Development Plan, our communities have expressed their needs and aspirations for promoting their progress and welfare. We have no doubt that this Plan will go a long way in helping us to achieve cost-effective development at the local level.

The LGA will work closely with the different stakeholders to ensure effective implementation of this Plan.

INTRODUCTION

This Community Development Plan (2021 – 2023) of Oye Local Government Area (LGA) outlines the vision and development needs of the communities in the LGA. The Plan is the outcome of a collaborative effort of the Local Government and community leaders. It was developed through a highly Inclusive and participatory process, which allowed all major community stakeholders to express their voice on their needs. It captures the needs of communities as identified by the Traditional Rulers, Chiefs, Persons with Disabilities, Youths, Women, Artisans, Farmers, Workers, the Elderly and Retirees.

The Plan outlines community needs in the following areas: Water and Sanitation, Education, Health, Local Economy, Basic Infrastructure (Roads), and Security.

Benefits of the Community Development Plan

This Community Development Plan is beneficial to the government and communities in many ways. It will:

- help the government to:
 - know the real needs of the people;
 - prioritise the needs of the different communities;
 - wisely allocate government funds;
- make it easier for both the LCDA and the state government to harmonise their development efforts in the communities to avoid duplication of projects;
- reduce the siting of unsustainable projects in communities;
- make the budget preparation process easier for both the LCDA and the state government.

In addition,

- Communities and the LCDA can use the plan to solicit for support for projects from prominent sons and daughters of the communities, corporate bodies, foundations and philanthropists.
- Communities can also use the plan to engage their elected representatives to choose their constituency projects from the real needs captured in the Plan;
- The Plan will help the LCDA create a sense of belonging for members of the community, as they work together with government to solve their problems.

Background Information

Oye Local Government, with headquarters in Oye town, is located in Ekiti North Senatorial district. It has a population size of 137,796 according to the 2006 Census. It equally has a landmass of about 515 square kilometres.

Oye Local Government was carved out of Ekiti North Local Government in the year 1989. It comprises

fifteen autonomous communities. It shares boundary with Ikole, Ilejemeje, Ido-Osi and Irepodun / Ifelodun Local Governments. The Local Government has four first class Obas who are pelupelu members; they are Onisa of Isan Kingdom, Attah of Ayede, Onitaji of Itaji and Oloye of Oye.

People in the Local Government are predominantly farmers who produce crops like yam, Cassava, Cocoyam, Tomatoes etc. The Local Government is blessed in mineral resources such as Kaolin and clay in Isan Ekiti, Clay in Ire Ekiti as well as different types of rocks.

The popular traditional festivals in the Local Government are Ogun Festival in Ire-Ekiti, Ekunrin Festival in Isan-Ekiti, Iro Festival in Ilafon-Ekiti, Orisa Ojuna Festival in Ayede-Ekiti, Idimo Festival in Itaji-Ekiti, Onisuku and Aran Festivals in Ilupeju-Ekiti.

How the Plan was developed

A team of volunteers made up of Community Leaders and Community Development Officers in the LGA were trained by our technical partner, Community Life Project (CLP), on how to carry out participatory needs assessment; the team then carried out the needs assessment. The needs assessment was carried out over a period of 3 weeks in 15 communities in the LGA.

The Team went round the communities, visited the Obas, and carried out Focus Group Discussions and In-Depth Interviews with different stakeholders to collate the pressing needs of the communities. The stakeholders interviewed include: Oba, Chiefs, Community Leaders, youths, women, Persons with Disabilities, Artisans, workers, health workers and teachers.

The LGA team also visited health facilities, water sources and schools to ascertain the conditions of the facilities.

A Town Hall Meeting was organised to review the Needs collected by the Needs Assessment Team. At the Town Hall Meeting, stakeholders reviewed the Community Needs that the Team had collated to make sure that they were accurate. The stakeholders were able to make further input, which helped to ensure that the collated Needs actually reflect the real Needs of the communities.

The 15 communities covered in the needs assessment are:

<i>Ayede</i>	<i>Ilupeju</i>	<i>Itapa</i>
<i>Ayegbaju</i>	<i>Imojo</i>	<i>Oloje</i>
<i>Ijelu</i>	<i>Ire</i>	<i>Omu</i>
<i>Ilafon</i>	<i>Isan</i>	<i>Osin</i>
<i>Ilemeso</i>	<i>Itaji</i>	<i>Oye</i>

THE NEEDS OF THE COMMUNITIES

1. Water and Waste Disposal

1.1 The Water Situation

5 communities, out of the 15 communities, have functional boreholes. These are *Ayegbaju, Ilemeso, Isan, Oloje and Oye* communities. The remaining 10 communities rely on deep-wells, streams and springs as their source of water. There are also individually dug wells in most of the communities.

Faulty Boreholes:

12 of the identified boreholes are faulty; 4 of them are located in *Owa-Iye, Odo-Iye, Odo-Atu and Ejigbo* in *Ayede* community; 7 of them are located in *Imua Street, Isawe and Surulere* in *Imojo*; and the last one is located in front of HRM Oba Makanjuola Ajaja's residence, *Imahun street* in *Itapa* community.

1.2 The Waste Disposal Need

There is need for proper waste disposal system in all 15 communities. At the moment, households adopt different ways of disposing their waste; some create a dumpsite behind the house and set the waste on fire when it is filled up; while others dump the waste in bushes surrounding the communities.

With respect to human waste, households within toilets practice open defecation.

2. Education Sector

2.1 The Situation of schools in the LGA

Oye LGA has 37 primary schools, 11 secondary schools and 1 public library.

2.2 The Needs of the 37 Primary Schools

4. Local Economy

Economic activities of communities in Oye LGA include farming, trading and artisanship.

Major Economic challenges experienced by communities in the LGA

- Lack of potable water in the markets
- Lack of Public Toilets in the market
- Lack of good farm roads
- Lack of modern farming tools
- Lack of access to soft loans and credit facilities
- Lack of storage facilities
- Lack of pesticides and herbicides
- Lack of market stalls
- No industry for gainful employment of the youths
- Lack of borehole for palm oil processing units
- Abandoned Cassava processing industry at Upper Temidire street, Osin, Ekiti
- Non-development of Esu Shrine as a tourist centre
- Dilapidated Isan pottery centre in need of renovation
- Lack of plantain industries

Palm Oil Processing Industry, Osin Ekiti
