ACKNOWLEDGMENT

Ilejemeje LGA wishes to acknowledge all the stakeholders that participated in producing this laudable Community Development Plan. This Plan was produced through a highly inclusive and participatory process. No stakeholder group was left out of the process. The following major stakeholders actively participated in the process of identifying the needs, resources and assets of the communities: Traditional Ruler / Chiefs, Iyalojas, Leaders of Community Development Associations, Persons with Disabilities, Youths, Women, Artisans, Farmers, Workers, the Elderly and Retirees as well as LGA Officials.

We also express our appreciation to the team of community volunteers and Local Government Officials who worked tirelessly over a period of 3 weeks, moving from community to community, organising Focus Group Discussions and In-depth Interviews with different community members to collate their needs, and also visited schools, health facilities and the sites of social amenities to ascertain their conditions.

Lastly, our profound gratitude goes to our technical partner, Community Life Project (CLP) supported by the MacArthur Foundation.

Through this Community Development Plan, our communities have expressed their needs and aspirations for promoting their progress and welfare. We have no doubt that this Plan will go a long way in helping us to achieve cost-effective development at the local level.

The LGA will work closely with the different stakeholders to ensure effective implementation of this Community Development Plan.

INTRODUCTION

This Community Development Plan (2021 – 2023) of Ilejemeje Local Government Area (LGA) outlines the vision and development needs of the communities in the LGA. The Plan is the outcome of a collaborative effort of the Local Government and community leaders. It was developed through a highly inclusive and participatory process, which allowed all major community stakeholders to express their voice on their needs. It captures the needs of communities as identified by the Traditional Ruler / Chiefs, Iyalojas, Leaders of Community Development Associations, Persons with Disabilities, Youths, Women, Artisans, Farmers, Workers, the Elderly and Retirees

The Plan outlines community needs in the following areas: Water and Sanitation, Education, Health, Local Economy, Basic Infrastructure (Roads), and Security.

Benefits of the Community Development Plan

This Community Development Plan is beneficial to the government and communities in many ways. It will:

- help the government to:
 - know the real needs of the people;
 - prioritise the needs of the different communities;
 - wisely allocate government funds;
- make it easier for both the LGA and the state government to harmonise their development efforts in the communities to avoid duplication of projects;
- reduce the siting of unsustainable projects in communities;
- make the budget preparation process easier for both the LGA and the state government.

In addition,

- Communities and the LGA can use the plan to solicit for support for projects from prominent sons and daughters of the communities, corporate bodies, foundations and philanthropists.
- Communities can also use the plan to engage their elected representatives to choose their constituency projects from the real needs captured in the Plan;
- The Plan will help the LGA create a sense of belonging for members of the community, as they work together with government to solve their problems.

Background Information

Ilejemeje Local Government, with headquarters in Eda-Oniyo, is located in Ekiti North Senatorial district. It has a population of 43,459 according to the 2006 Census and a land mass of about 96 square kilometres.

Ilejemeje has 7 major towns: *Eda-Oniyo, Ewu, Ijaro, Ijesamodu, Iludun, Ipere* and *Iye*. The traditional

Council of Obas is made up of Royal Fathers from the 7 major towns. The current Chairman is His Royal Majesty, Oba Adetutu Ajayi, J.P., the Elewu of Ewu Ekiti.

Vision of the Communities in Olorunda Local Government

We want to see a civilized and well-developed society that boasts of quality schools, health services, financial services, mechanized farming and regular electricity to grow the local economy, and improved security services.

How the Plan was developed

A team of volunteers made up of Community Leaders and Community Development Officers in the LGA were trained by our technical partner, Community Life Project (CLP), on how to carry out participatory needs assessment; the team then visited communities to collate their needs.

The needs assessment was carried out over a period of 3 weeks in 7 communities in the LGA. The communities are: *Eda-Oniyo, Ewu, Ijaro, Ijesamodu, Iludun, Ipere and Iye.*

The Team went round the communities, visited the Obas, and carried out Focus Group Discussions and In-Depth Interviews with different stakeholders to collate the pressing needs of the communities. The stakeholders interviewed include: Oba, Council Chiefs, Iyalojas, youths, women, Persons with Disabilities, Artisans, workers, health workers and teachers.

Focus Group Discussion with Community Leaders, Ipere Community

The LGA team also visited health facilities, water sources and schools to ascertain the conditions of the facilities. Focus Group Discussion with Community Leaders, Ipere Community. A Town Hall Meeting was organised to review the Needs collected by the Needs Assessment Team. At the Town Hall Meeting, stakeholders reviewed the Community Needs that the Team had collated to make sure that they were accurate. The stakeholders were able to make further input, which helped to ensure that the collated Needs actually reflect the real Needs of the communities.

THE NEEDS OF THE COMMUNITIES

1. Water and Waste Disposal

1.1 *The Water Situation*

The communities rely on boreholes, wells and streams as their major sources of water.

Faulty Boreholes

- *Eda-Oniyo community* has 4 faulty boreholes located at Ilemosho street along Obbo Road; Olorunsogo street in front of Mr. Olaiya's house; Oke Amin in front of Femi Awolola House; and Opposite late chief Joseph Daramola's House.
- *Ijesamodu community* has 6 faulty boreholes located at Oba's palace, Oyedeji's house, St. Luke Primary school, Akinpelu's house, Alobe's house and Head tank beside Daramola's house.
- *Iludun community* has 5 faulty boreholes located as follows: inside St. David's Anglican Primary School, beside Night Market, in front of Omoowa Shop, beside Elewu mother's shop and in front of Asaja's House.
- *Ipere community* has 3 faulty boreholes located in front of Health centre, in front of Ogundana's house and in front of Daramola's house.

1.2 *The Waste Disposal Situation*

There is need for a proper waste disposal system in all 7 communities. Right now, waste is either burnt or thrown into the bush.

2. Education Sector

2.1 *The Situation of schools in the LGA*

Ilejemeje has 18 public primary schools: 2 of the schools are located in Ewu community; 1 in Ijaro community; 2 in Ijesamodu community; 4 in Iludun community; 2 in Ipere community and 7 in Iye community.

It has 6 secondary schools located in *Eda-Oniyo, Ewu, Ijesamodu, Iludun, Ipere and Iye* communities.
