Acknowledgment

This Plan is a collaborative effort between community leaders and LGA officials in Ijero Local Government. It was produced through a very inclusive and participatory process.

All major stakeholders participated in the process of identifying the needs as well as the resources and assets of the communities. They include Traditional Rulers / Chiefs, Persons with Disabilities, Youths, Women, Artisans, Farmers, Workers, the Elderly and Retirees.

Our people have expressed their needs and aspirations for promoting their progress and welfare. This Community Development Plan will go a long way in helping us to achieve cost-effective development of our communities.

We express our appreciation to the team of volunteers and LGA Officials who worked tirelessly moving from community to community, organising Focus Group Discussions and Key Informant Interviews with different community members to collate their needs, visiting schools, health facilities, and social amenities to ascertain their conditions. We also thank the Traditional Rulers and Chiefs for their support.

Lastly, our profound gratitude goes to our technical partner, Community Life Project (CLP) in partnership with the Nigerian Civil Society Situation Room ably supported by the UK Foreign, Commonwealth and Development Office (FCDO).

We will work closely with the different stakeholders to ensure effective implementation of this Plan.

Introduction

This Community Development Plan (2024 – 2026) of Ijero Local Government Area (LGA) outlines the development needs of the communities in the LGA. The Plan was developed through a collaborative effort of the LGA and community leaders. It outlines community needs and projects in the following areas: Water and Sanitation, Education, Health, Local Economy, Basic Infrastructure (Roads), and Security.

Benefits of the Community Development Plan

- * It helps the government to:
 - o Know the real needs of the people;
 - o understand the priority needs of the different communities; the various competing needs of the different communities that the government needs to prioritise when allocating resources for projects;
 - o wisely allocate government funds;
- * It makes it easier for the LGA and the state government to prepare their annual budgets;
- * It makes it easier for both the local government and the state government to harmonise their development efforts in the communities to avoid duplication of projects.
- * It reduces the siting of unsustainable projects in communities;
- * Communities and the LGA can use the plan to solicit for support for projects from prominent sons and daughters of the communities, corporate bodies, foundations and philanthropists.
- * Communities can also use the plan to engage their elected representatives to pick their constituency projects from the real needs captured in the Plan;
- * The Plan will help the LGA create a sense of belonging for members of the community, as they work together with the government to solve their problems.

Background Information

Ijero Local Government is in Ekiti Central Senatorial District of Ekiti State. It has a land mass of 374,940km² and a population of 168,436 (2006 census). Ijero Local Government has its administrative headquarters located in Ijero-Ekiti.

The majority of its inhabitants engage in farming. It has fertile land and grows root crops such as yam, cassava, cocoyam, etc., and grains such as Maize, Rice, etc. There are a few Cottage industries such as Agricultural processing industries, Printing press, Bakeries, Weaving, Carpentry, etc.

How the Plan was developed

A team of volunteers made up of Grassroots Community Leaders and Local Government Officials (Directors of Budget and Community Development) in the LGA were trained by our technical partner, Community Life Project (CLP), on how to carry out participatory needs assessment.

The needs assessment was carried out over a period of 3 weeks in 16 communities in the LGA. The communities are:

Ara	Ijero	Ilukuo	Oke-oro
Araromi	Ijurin	Ipoti/Ediyan/Owatedo	Temidire
Ayegunle	Ikoro	Iroko	
Epe	Iloro	Odo-owa	

The team went around the communities and carried out Focus Group Discussions and In-Depth Interviews with different stakeholders to collate the pressing needs of the communities. The stakeholders that helped to identify the needs of the communities include: Oba, Council Chiefs, youths, women, Persons with Disabilities, Artisans, workers, health workers and teachers.

The LGA team also visited health facilities and schools to ascertain the conditions of the facilities.

A Validation Workshop was organised to review the needs collected by the Needs Assessment Team. Present at the workshop were representatives of State Ministries, Departments and Agencies, as well as Community Needs Assessment Team.

1.3 The Waste Disposal Need

Communities in Ijero have adopted 2 ways of disposing of their waste - either by burning or throwing the waste in the bush. Many in the communities still practice open defecation.

Waste Management Needs:

- Public toilets
- Proper waste Disposal Bins should be placed in strategic locations within the community.
