## Acknowledgment

This Plan is a collaborative effort between community leaders and LGA officials in Ikole Local Government. It was produced through a very inclusive and participatory process.

All major stakeholders participated in the process of identifying the needs as well as the resources and assets of the communities. They include Traditional Rulers / Chiefs, Persons with Disabilities, Youths, Women, Artisans, Farmers, Workers, the Elderly and Retirees.

Our people have expressed their needs and aspirations for promoting their progress and welfare. This Community Development Plan will go a long way in helping us to achieve cost-effective development of our communities.

We express our appreciation to the team of volunteers and LGA Officials who worked tirelessly moving from community to community, organising Focus Group Discussions and Key Informant Interviews with different community members to collate their needs, visiting schools, health facilities, and social amenities to ascertain their conditions. We also thank the Traditional Rulers and Chiefs for their support.

Lastly, our profound gratitude goes to our technical partner, Community Life Project (CLP) in partnership with the Nigerian Civil Society Situation Room ably supported by the UK Foreign, Commonwealth and Development Office (FCDO).

We will work closely with the different stakeholders to ensure effective implementation of this Plan.

## Introduction

This Community Development Plan (2024 – 2026) of Ikole Local Government Area (LGA) outlines the development needs of the communities in the LGA. The Plan was developed through a collaborative effort of the LGA and community leaders. It outlines community needs and projects in the following areas: Water and Sanitation, Education, Health, Local Economy, Basic Infrastructure (Roads), and Security.

## Benefits of the Community Development Plan

- \* It helps the government to:
  - o Know the real needs of the people;
  - o understand the priority needs of the different communities; the various competing needs of the different communities that the government needs to prioritise when allocating resources for projects;
  - o wisely allocate government funds;
- \* It makes it easier for the LGA and the state government to prepare their annual budgets;
- \* It makes it easier for both the local government and the state government to harmonise their development efforts in the communities to avoid duplication of projects.
- \* It reduces the siting of unsustainable projects in communities;
- \* Communities and the LGA can use the plan to solicit for support for projects from prominent sons and daughters of the communities, corporate bodies, foundations and philanthropists. Communities can also use the plan to engage their elected representatives to pick their constituency projects from the real needs captured in the Plan;
- \* The Plan will help the LGA create a sense of belonging for members of the community, as they work together with government to solve their problems.

### How the Plan was developed

A team of volunteers made up of Grassroots Community Leaders and Local Government Officers (Directors of Budget and Community Development) in the LGA were trained by our technical partner, Community Life Project (CLP), on how to carry out participatory needs assessment.

The needs assessment was carried out over 3 weeks in 25 communities in the LGA. The communities are:

Ajowa	Ara	Asin
Ayebode	Esun	Igbonna
Ijesa-isu	Ikole	Ikoyi
Ikunri	Ilamo	Ipao
Irele	Isaba	Itapaji
Iyemero	Odo-Ayedun	Odo-oro
Oke-ako	Oke - Ayedun	Oke-ijebu
Ootunja	Orin-odo	Temidire

The team went around the communities and carried out Focus Group Discussions and In-Depth Interviews with different stakeholders to collate the pressing needs of the communities. The stakeholders that helped to identify the needs of the communities include: Oba, Council Chiefs, youths, women, Persons with Disabilities, Artisans, workers, health workers and teachers.

The LGA team also visited health facilities and schools to ascertain the conditions of the facilities.
